COMPLNED DECLARATION AND POWER OF ATTORNEY

As a below named inventor, I hereby declare that: my residence, post office address and citizenship are as stated below untit to my name; that I we'dly believe that I am the original, first and sole inventor (if only one name is listed below) or a joint inventor (if plural inventors us named below) of the subject matter which is claimed and for which a patent is sought on the invention ontitled:

METHOD AND APPARATUS FOR TRANSMITTING REAL-TIME DATA IN MULTI-ACCESS SYSTEMS

the specificati	ion of which
(check one)	图 is attached hereto.
	☐ Was filed on
	as U.S. Application Sexial No.
	was filed on
	as PCT International Application No.
and (if applica	ble) was amended on
bereby space	that I have reviewed and understand the contents of the above identified specification.

I acknowledge the duty to disclose information known to me which is meterial to the examination of this application in accordance with Title 37, Code of Federal Regulations, 5\$1.56(a) and (b), which stare:

including the claims, as smeaded by any smeadment referred to above.

- "(a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the trackings of all information material to permutability. Rach individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is cancelled or withdrawn from consideration, or the application becomes abandoned. Information material to the patentability that is cancelled or withdrawn from consideration need not be submitted if the information is not material to the parentability of any oldin remaining under consideration in the application. There is no duty to submit information which is not material to the parentability of any existing claim. The duty to disclose all information known to be material to patentability is deemed to be satisfied if all information knows to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by \$51.97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine:
 - (1) prior art cited in search reports of a foreign patent office in a countespart application. (2) the closest information over which individuals associated with the filing or prospection of a patent application believe any pending claim patentally defines, to make sure that any material information contained therein is disclosed to the Office.
- **(b)** Under this section, information is material to paternability when it is not equalative to information already of record or being made of record in the application, and

(1) It attablished by itself or in combination with other information, a prime facto case of apparentability of a claim; or

(2) It refutes, or is inconsistent with, a position the applicant takes in:

Opposing an argument of unputentability relied on by the Office, or

Asserting an argument of patratability.

A prima facie case of unpatentability is resolutioned when the information compels a conclusion mas a claim is unpatentable under the prepondenance of evidence, burden-of-proof standard, giving each term in the claim its broadest measurable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability,"

I hereby claim foreign priority benefits under 35 United States Code, \$119 and/or \$365 of any foreign application(s) for patent or inventor's comfleate listed below and have also identified below any funcion application for patent or inventor's confidents filed by soo or my assigned disclosing the subject matter claimed in this application and having a filing date (1) before that of the application on which priority is claimed, or (2) if no priority claimed, before the filing of this application:
